Scottish and Newcastle Breweries choose FMM for print management

Brewery giant Scottish and Newcastle have appointed FMM's print management arm to handle their print requirements throughout the UK.

Formpro were one of two suppliers that won through after an exhaustive tendering process which started with over thirty companies bidding for the prestigious account.

"We have been working with S&N's distribution and creative arm Waverley TBS for a long time" said Mark Skirton FMM's head of print management, "and I like to think that the service we've provided there helped us along. But our prices still had to be right!"

Formpro are already off to a flying start working on new stationary as the Company rebrand all their printed matter as Heineken.
